

CLOUD

madison's premier cloud service provider

enjoy technology :)

WHAT IS THE CLOUD?

The Cloud is a new paradigm for delivering information and services, making them accessible from any device (desktops, laptops, smartphones, thin clients), any location (office, home, coffee shop), at any time via communications networks and the Internet. Your applications and data live and run from servers that can be located anywhere—even multiple locations—around the world. This means computer processing is highly available and scalable based on your specific needs.

5NINES is your independent, locally owned Cloud infrastructure solutions and service provider.

- We'll manage your client devices, servers, applications and network systems in your facility, in our facility and in the Cloud. Why spend valuable resources managing your own IT when we can do it more efficiently, for less money, and most important, with the highest level of availability, accountability and security?
- **We're Cloudsmiths!** We specialize in providing Cloud consulting, design, implementation, hosting, management and support for small and medium-sized businesses.

5NINES IS YOUR CONDUIT TO THE CLOUD

5NINES has been building the Cloud for over 10 years, offering enterprise-level services that balance any sized organization's functional, security and cost requirements. Whether you're a two-person shop or a company with 100+ employees and multiple locations, you can enjoy the business benefits of the Cloud—faster time to market, increased productivity and reduced capital for ongoing maintenance costs...**all of which increase revenue and profits.**

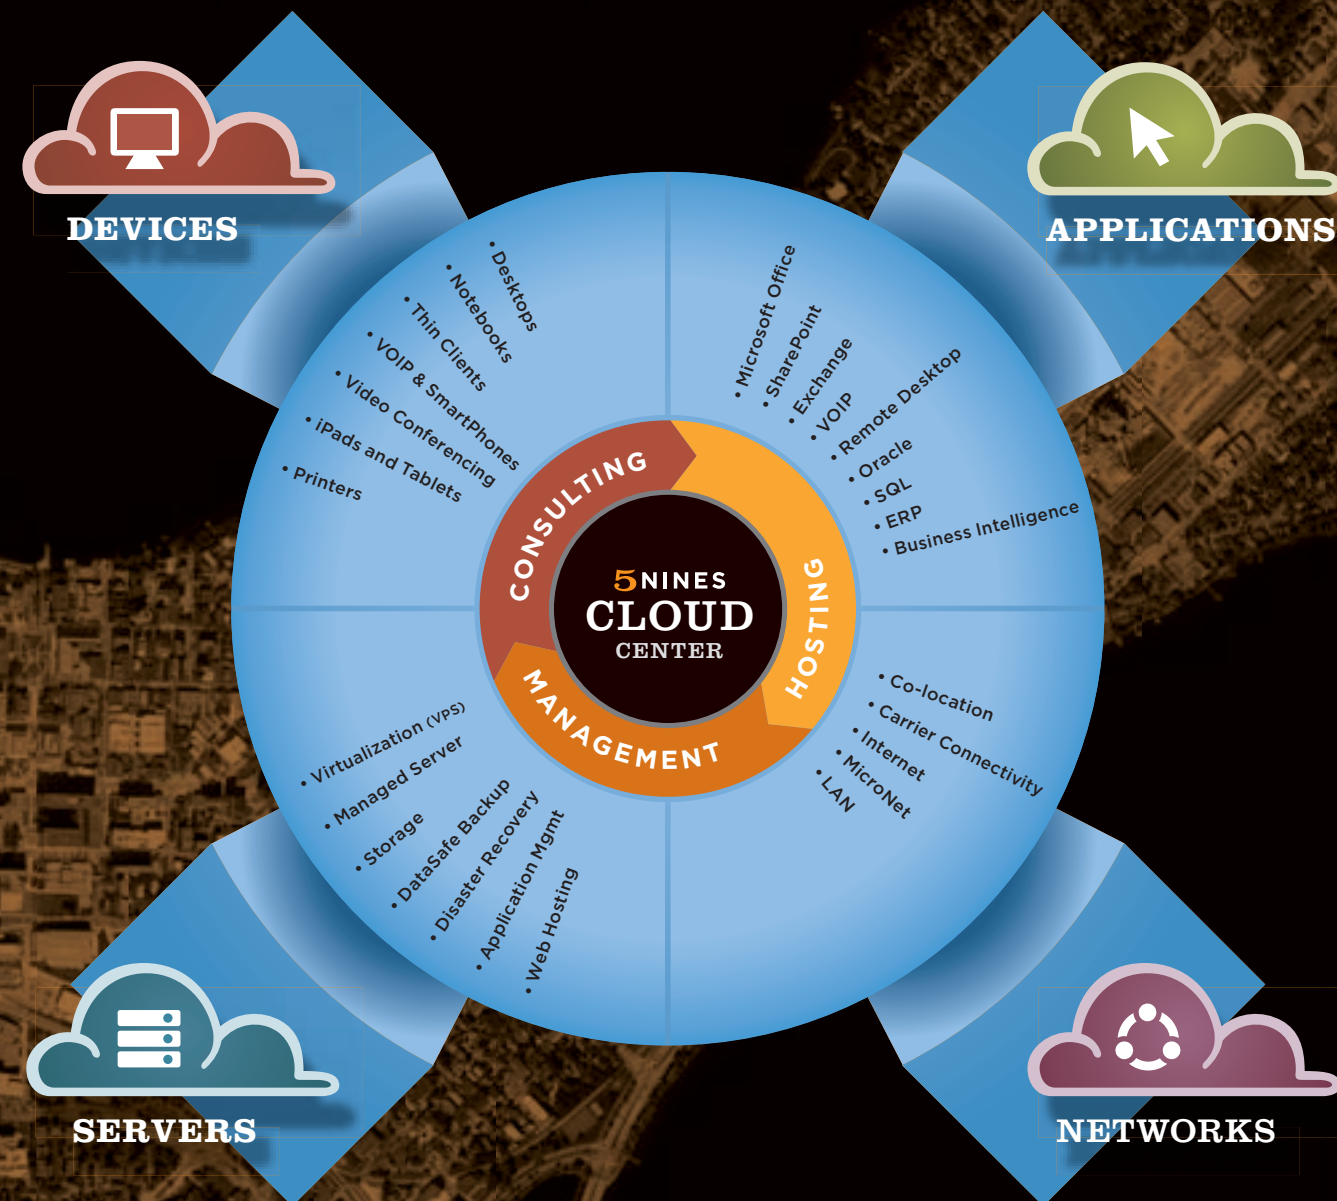

Overview of our Cloud services:

- DEVICES AND APPLICATIONS** Connect to the Cloud faster when 5NINES manages your workspace. You'll enjoy the most up-to-date technology, best uptime and lowest cost of ownership because we'll set you up with the same technology environment as Fortune 1000 companies enjoy—you'll reap the benefits without the headaches of managing it. We provide, host, maintain, monitor and support your hardware, software, licensing and antivirus protection so you can focus on your core business. **Best of all, your IT expenses are fixed so you can accurately budget.**
- SERVERS** Our Cloud data center provides customers with web hosting, co-location services, virtual private server platforms, DataSafe backup and storage while assuring the highest level of security, integrity and functionality. We can also manage and support your servers as well as help you set up a private Cloud.
- NETWORKS** Your fastest connection to the Cloud is through 5NINES Cloud data center. Our MicroNet wireless broadband technology connects you at speeds up to 50 times faster than T1, cable and DSL —and we offer the choice of 11 different telecommunication providers. Whether you want to connect to the Internet or set up a private network connecting multiple locations, 5NINES will design the most effective, secure and economical network to fit your needs.

5NINES CLOUD SOLUTIONS

WE SUPPORT YOUR ENTIRE BUSINESS INFRASTRUCTURE

NOBODY DOES **IT** BETTER

WE ARE MADISON'S BEST CHOICE FOR SINGLE-SOURCE IT SOLUTIONS

We offer the broadest base of technical experience available and empower our qualified professionals to provide you with creative, affordable solutions.

WE ADHERE TO THE STRICTEST SECURITY STANDARDS

Security is a cornerstone of our business—that's why we've chosen to meet the same strict standards as companies like **Cisco** and **Microsoft**. 5NINES adheres to the governance, controls and security standards developed by the global Cloud Security Alliance (CSA).

- 🔒 We perform an annual CSA audit, designed specifically for the dynamic nature of cloud computing and information security.
- 🔒 The audit is conducted by a third-party security firm and reviews controls that are mapped directly to compliance standards such as **PCI, HIPAA, ISO/IEC, NIST** and **COBIT**.

What does all of this really mean? It means our customers rest assured because they know their assets are in the safest, most secure environment possible. For more detailed information, please ask—we'll even show you a copy of our audit! (It's really long, but definitely worth the read if you're into that kind of thing...)

DISCOVER WHAT IT MEANS TO ENJOY TECHNOLOGY

OUR PROMISE

5NINES is your local technology partner. We provide innovative Cloud solutions that are driven by a custom-crafted approach. We enjoy delivering the **highest availability, adaptability** and **accountability** in the industry, and unlike the Amazons and Googles of cloud computing, we can come to you when you need us.

- Our name is a constant reminder of our commitment to customers—our data center is designed for and continues to meet our **99.999% uptime guarantee**.
- Call us for support **24•7•365**, and you will speak to a human. Our average response to support tickets is **2-3 minutes**, and 90% of tickets are resolved the same business day.
